[appendix-1-5.pdf](#)

This was before my time with malathion as well. I think it would be good to reach out to Paul and see if he could provide us with a commitment letter following up on his statements in the attached appendix. Kelly what do you think?

Steven – Please check in with Kelly on this point before you move forward, since I’m not familiar at all with what’s been going on with malathion.

All,

Thank you again for your review and edits. I was going through Anita comments on project description for malathion to incorporate with the edits you all provided. Her comments are general and apply across all three chemicals. One of her comments request PRD provide some language describing the reg review process (see comment on page 5). Can one of you get provide that language? Also, Steve can you confirm that the number of registrants for malathion (see comment on page 19)?

Hey Steve and Dana,

Would you be able to review the projection descriptions (part of Biological Opinions) from FWS for your respective chemicals over the next week?

**Subject:** RE: ESA Team Lead Meeting

All,

Attached are the project descriptions for chlorpyrifos, malathion, and diazinon from FWS. After taking a quick look through them, it looks like mostly a summary of the product labels (under Description of Proposed Action) with placeholders for a summary of our NLAA/LAA calls (under Concurrence), Consultation History, and any proposed mitigation (under Conservation Measures). Nothing to share from NMFS so far. We discussed PRD reviewing these documents last week during Team Lead meeting.

Tracy & Khue – Waiting to hear back from FWS regarding when they would like comments back. Would you have time over next week or so to review?

Thanks,

Phil
